

**H.E.A.R.T.H. Event:** *Messy Science Lab*

**Date:** Sept. 9, 16, 23, & 30

**Register by:** Closed

**Organizer:** Becky Hall

**Location:** Fantasy Land Playground Pavilion

**Cost:** \$5.00 per student

**Details:**

Come join us for four fun-filled weeks of hands-on, messy science experiments that will make science come alive for your kids! We will explore the answers to some of the fascinating mysteries of the world around us using ordinary household items. Your children will love doing experiments with "magic sand", slimy goo, loud (but safe) explosions, ice cream, and experiments demonstrating the digestive system (need we say more?), all while learning about the scientific method, forming hypotheses, etc. And the best part - your kitchen stays spotless!

**Ages:** 1pm-2pm 4 years old through 2nd grade

2pm-3pm 3rd grade through 6th grade

**Please note that HEARTH parents are responsible for their own children at all times. Children may not be dropped off. One adult from each family should plan to stay in the park area for the duration of each class, or he/she should make arrangements with another adult to supervise children in advance of the class date.**
